The Knock-out Blow.

The knock-out Blow.

The blow which knocked out Corbets was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing house to the public a parallel fact; that the days are to the public a parallel fact; that the sound is the most vulnerable organ out of the prize ring as well as in it. We protect bur hands, throats, feet and lungs, but the sample we are utterly indifferent to, until dischaefinds the solar plexus and knocks us out. Make rour stomach cound and strong by the use of Dector Plerce's Golden Medical Discovery and you protect yourself in your most vulnerable and in the prize ring and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sagels Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy.
